SITUATION SUMMARY

Magnitude 3.6 Earthquake, near Concord, Contra Costa County

On 5/3/15 at 1513 hours, an initial magnitude 4.0 earthquake which was later downgraded to a magnitude 3.6 earthquake occurred 1 mile west of Concord in Contra Costa County. The Warning Point reported it was felt, but there were no reports of damage or injuries. Contra Costa County Fire Communications reported a slight shaking, but also indicated no reports of damage or injuries. USGS reported that the quake occurred along the “Concord-Green Valley” fault system and was comprised, in sequence, of M2.5, M3.6 and M2.7 quakes between 1501 and 1514 hours. The Warning Center made all required notifications.

Magnitude 3.8 Earthquake, near Baldwin Hills, Los Angeles County

On 5/3/15 at 0407 hours, a magnitude 3.9 downgraded to a magnitude 3.8 earthquake occurred 1 kilometer ESE of Baldwin Hills in Los Angeles County. Slight shaking was felt throughout the Los Angeles area, but there were no reports of damage or injuries. The quake was centered on the Baldwin Hills/Inglewood border but did not issue from the Newport-Inglewood fault which runs nearby, but from an as yet unidentified fault in the same area.

7.8 Magnitude Earthquake, Kathmandu, Nepal

In response to Nepal’s request for urban search and rescue (US&R) assistance the United States State Department, U.S. Agency for International Development’s, Office of Foreign Disaster Assistance (USAID/OFDA) has deployed two INSARAG-Classified Medium US&R teams: Fairfax County, VA (VA-TF1, identified by USAID/OFDA as USA-1), consisting of 54 personnel to include six Canine Search Teams; and Los Angeles County, CA (CA-TF2, identified by USAID/OFDA as USA-2), consisting of 57 personnel to include six Canine Search Teams. USA-1 and USA-2 are actively operating in Nepal at this time.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/wwwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An upper trough will shift over the Pacific Northwest today and then dive over Southern California late this upcoming week. Mostly dry conditions should persist this week with a potential thunderstorm over interior mountains this afternoon. Temperatures should continue to be seasonal over the next few days.

Medford Weather:

Today will be another warm day over inland areas but it will be several degrees cooler than the Sunday highs over the west side and near the east side as the marine influence and cloud cover increase over the area. East of the Cascades and over Northern California there will be another round of showers and maybe some isolated thunderstorms. Tonight a cold front will be pushed onshore resulting in light precipitation, mostly limited to the west side. Tuesday will be quite a bit cooler everywhere with highs dropping to near normal values over most of the area. Cool air aloft and the short waves will support rounds of showers Tuesday night into Wednesday.

Reno Weather:

Warm temperatures and chances for showers and thunderstorms will continue this afternoon. A low pressure system dropping out of the Gulf of Alaska will bring an unsettled weather pattern by midweek with more widespread shower activity. Daytime temperatures will be as much as 20 degrees cooler from today to Thursday.

San Francisco Weather:

A deep marine layer will maintain low clouds and fog along the coast and inland valleys through at least Wednesday. A trough of low pressure will pass over the area midweek mixing out the marine layer and promoting a slight chance of showers around the area, especially over the mountains. Otherwise, expect slightly below normal temperatures continuing through the week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Strong Delta breeze continues to spread inland cooling today, otherwise warm temperatures with a slight chance of mountain thunderstorms continue through Tuesday. Cooler and more unsettled weather will arrive by the middle of the week.

Hanford Weather:

High pressure over the region will weaken today as a system crosses Southern California. A low pressure center will push into the Pacific Northwest on Tuesday and then drop southward later in the week bringing cooler temperatures and unsettled conditions to the area.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Night through morning low clouds and fog will continue for the coast and valleys through midweek with onshore flow and weak low pressure. Another low will move in Thursday and Friday with possible rain showers. Temperatures should remain below normal through the week. For next weekend, high pressure will bring fair and warmer conditions to the area.

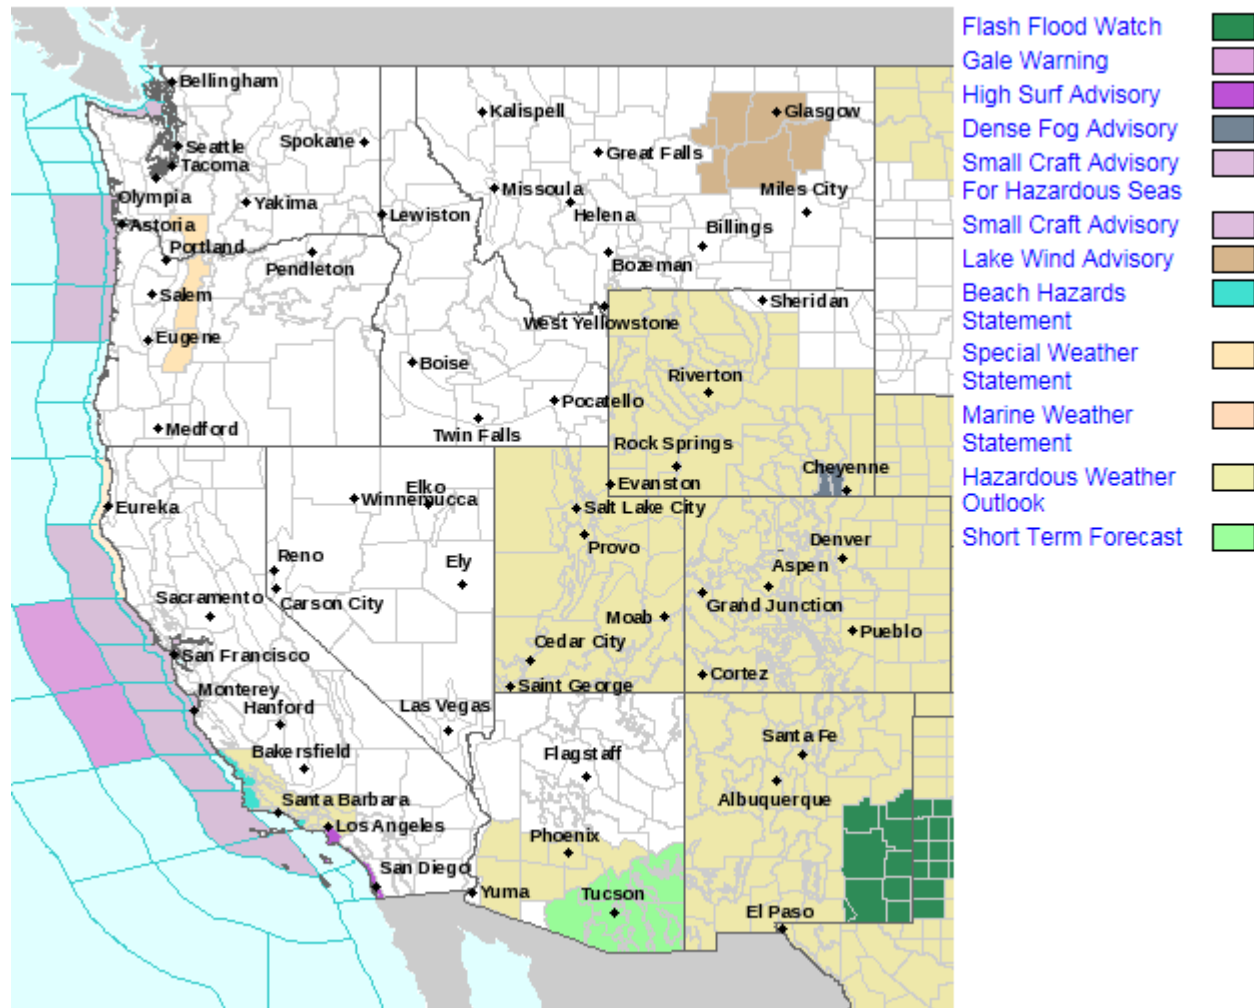

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A weak low pressure system off the California coast will move inland today bringing cooling, gusty west winds in the mountains and deserts, and a slight chance of thunderstorms. The region will be slightly warmer for Tuesday and Wednesday. A colder, stronger low pressure system from the north will bring additional inland cooling for Thursday and Friday, gusty west winds in the mountains and deserts, and chances for showers along and west of the mountains. High pressure will bring warming and drying next weekend with high temperatures returning to near average for next Sunday and Monday.

Southeast California Weather:

A series of Pacific weather disturbances are forecast to move across the region this week keeping temperatures below normal through the entire period. A colder weather disturbance is expected to bring cooler temperatures and gusty winds at the end of the week.

RECOVERY ACTIVITIES

Round Fire, Mono County

- On Day 29, received confirmation sampling results from six sites and two re-tests. Of the six, four sites were below objectives and two were not. Of the two re-tests, both were below objectives. All hazard trees were removed on Day 29. Hydro-seeding of private lots started.
- Tree falling crews completed removing, bucking, and chipping hazard trees on the private home sites. Contractors continued installing erosion control devices and working on final punch list.

Project Totals as Day 29:

37	Homeowners who registered for the removal project.
4	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
37	Debris removal completed.
37/35	Confirmation sampling completed/approved.
34	Tree Removal Completed (35 homes have hazard trees).
0	Erosion Control Completed.
0	Approved by County for Building Permit.

Estimated Daily Tonnage:

Category	Day 28	Day 29
Debris/Ash	0	0
Soil Disposed	0	0
Metal Recycled	0	0
Concrete Recycled	0	0
Total	0	0

Estimated Project Total Tonnage for the Project as of Day 29:

Category	Total Tons
Debris and Ash Disposed	3,459
Soil Disposed	4,480
Metals Recycled	1,476
Concrete Recycled	3,916
Total All Categories	13,331

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 56 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 10 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Montague (Siskiyou County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), and City of West Sacramento (Yolo County), City of Willits (Mendocino County), City of Manteca (San Joaquin County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

MASTER EXERCISE PRACTITIONER PROGRAM (MEPP)

FEMA-Emergency Management Institute will be accepting applications for MEPP Series 36, 37 and 38.

The MEPP is a series of three courses (E0132, E0133 and E0136) focusing on advanced exercise design, conduct and evaluation practices in each phase of the Homeland Security Exercise and Evaluation Program (HSEEP). The MEPP assigns candidates to an Exercise Planning Team where they are challenged to demonstrate their expertise at all levels of exercise design and conduct through in-class and take-home proficiency demonstrations. Candidates apply best practices and lessons learned from their organizations and experiences, as well as, key learning concepts from the MEPP curriculum to their exercise planning team assignments.

See attachment for dates, prerequisites, additional instructions and registration information.

MEPP Applications can be submitted from May 1 – July 1, 2015 to alex.cabassa@caloes.ca.gov or by fax to (916) 845-8381

IMPORTANT NOTE: California responders applying for the MEPP program cannot substitute the California Homeland Security Exercise and Evaluation Program course CA-002-COMM as a prerequisite for the new L/K0146 Homeland Security Exercise and Evaluation Program (HSEEP).

K0146 can be completed by visiting <http://www.training.fema.gov/emi.aspx> selecting dates for the on-line K0146 and submitting a FEMA Form 119-25-1, by fax or email to: alex.cabassa@caloes.ca.gov or FAX (916) 845-8381
